TO N PALLEGAR, Esq, M A, LL B,

SIR

Sub - Grant of lands to Idiga Committee, at Mysore

With reference to your letter No L 13192 dated the 28th March 1947 and subsequent letter No L 14928 dated the 26th April 1947 calling for a detailed report on the petition of the President, Idiga Committee, I have the honour to state as follows:-

1) Survey No 125 of Maragowdanahalli Village measuring 2 Acres and 10 guntas is a Kharab land belonging to Government The land never belonged to Idiga and as such the statement made that the Survey Number was un-authorisedly taken possession of by the Trust Board is not correct It is represented in the petition that the portion of the S No 125 to the east of the road be allowed to the Idiga for being used as prayer grounds which they are said to have been using for the last century and a half This was not conceeded during the inspection of the Minister as the place is rugged and rocky and is far away from the prayer grounds and hence not suited for the purpose The statement that the portion is being used fo prayer is not true

2) Though S No 128 is a more valuable land, the Minister was plea to order that necessary extent out of this Survey Number may be granted instead of S No 125 which has been already made use of by the Trust Boa in view of the representation by the Muslim population The President now insists upon the grant of the remaining portion of S No 125 though i is unsuited for being used as prayer grounds, and inspite of the fact th a more valuable land is granted to the Idiga Committee The request of the President is unreasonable

3) As regards the construction of an Anjaneya Temple near Idiga and also the communal tension alleged by the President it may be stated that the allegation is not tenable as permission has been recently given to Muslim community for construction of a Masjid amidst Hindu localities

P T O

in Idiga locality itself, Such instances are not uncommon at all The President cannot be said to have been actuated by liberal and tolerant motive in making the complaint He has to exhibit reciprocity of good feelings towards Hindu community also

4) Re grant of sites and also grant of S No 124 measuring 4 to 5 guntas - The request of the President cannot be complied with as the Trust Board cannot undertake to accommodate all the needy muslim applicants in the same place as many of the sites have already been disposed of Further S No 124 has been formed into sites and sold to several persons The area now occupied by the E D Hospital has been ordered to be reserved for Muslim applicants If any more applications are to be received they will be considered by the Board and sites given wherever available No special treatment can be made to a particular community On the whole the contensions of the President of the Idga Committee are not quite reasonable nor practicable The Government have shown a good deal of concession in their Order No L 10114 dated the 17th January 1947 and the muslim population ought to be grateful for this

The petition received with your letter under advertance is returned as desired The entire records of this office is also sent herewith for reference and return

I have the honour to be,
Sir,
Your most obedient servant,

To

Dewan Bahadur Dr T C M Poyan, M D,
Minister for Education and Public Health,
In-charge Dewan, BANGALORE.

Respected Sir,

The Idgah Committee is greatful to you for having visited the Idgah grounds and consulted the leading Muslims and members of the Idgah Committee on 22-7-1946 and coming to an understanding which culminated in the order received through the Chairman

In this connection I venture to point out that there has been some variation from the position reached at the time of your inspection and these variations are noted below --

1 It was agreed that the portion in survey No 125 which has been unauthorisively taken position of by the Trust Board and roads had been formed, may be left to the Trust Board and that no contention be raised in this connection and that the portion of survey No 125 to the East of the road be allowed to be in the possession of the Idgah, for the purposes of congregations offering prayers which they have been doing during the last century and a half

2 With a view to compensate the Idgah for taking away a portion of survey no 125, referred to supra, an extent of two acres and fifteen guntas in survey no 128, which on record had been acquired but which in fact had been continued to be in possession of the Muslims Community and over which the congregation continously offered their prayers, was ordered to be declared as the property of the Idgah and that the ownership of the Idgah over that land might not be disputed Now it is pointed out that the entire survey No 125, has been ordered to be treated as Trust Board land in contravention of the record and our observations at the time of inspection This may kindly be rectified This bit of land is very important as it is contiguous to the plot over which Idgah stands and over which as has been pointed out Muslims have been for generations saying their prayers on the Khutba days

3 In these days of friction and height of frenzy and Communal tension, it is the duty of every patriotic citizen to whatever community he may belong, to take preventive action which will help to maintain the happy relations between communities It is also learnt that a bit of Survey no 125, which has been encroached upon

by the Trust Board in the close profanity to Idgah, proposals for constructing an 'Anjaneya Temple' are under way It is feared unnecessarily provocations and frictions may lead to the breach of peace which has to be nipped in the bud It is therefore to prayed that the Government be pleased not to give permission to such proposals

4, The sites forming in the block proposed to be given to Mulsim Communities are absolutely in adequate as no more than about 25 sites could be available on the block You were pleased to observe that two rows of sites just behind the Idega should be reserved to the Muslim Community but for reasons not known to us these had been disposed off disregarding the promise held out by the Trust Board in their resolution passed in their meeting in 1943, that the claims of Muslims be considered after the layout is completed

5 It is therefore suggested further that matter be ordered to be explored with a view to make more sites available to the muslims further it is prayed, that a small portion of survey no 124, measuring about four or five guntas adjoining the survey no 125, ~~owned~~ to be allowed to continue as Idgah land ma also be kindly given away to the Idgah as it is so close to Idgah ground

6 It is my painful duty to bring to your kind notice that the local authorities intend giving effect to the Government Order with force if necessary I therefore appeal to you to issue a stay order and be pleased to call for the records and peruse the same with sketches and maps and if necessary hold the spot inspection and hear the representation of the members of the Idgal Committee

For which act of address I shall ever remain greatful to you
